PART I.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

The summary of discussion on Subject No. 163 of the Proceedings of the Representativ Assembly of 1908, to the effect that iron smelters who are taxed at Rs. 12 per annum f each kulme (iron furnace) should be exempted from taxation or the tax itself reduced, an the smelters also allowed to remove charcoal from forests free of cost for *bona-fide* smeltin purposes, with a view to afford every facility for the development of the iron industry whic is failing.

2. Letter No. 6878, dated the 27th February 1909, from the Conservator of Forests i Mysore, stating that it is very desirable in the interests of the agriculturists that a light fe amounting to about one-fourth of the ordinary prescribed seigniorage should be levied fo charcoal required for *bona-fide* smelting purposes.

3. Letter No. 6741, dated the 7th January 1910, from the Revenue Commissioner i Mysore, stating that as iron smelters in the State do not generally smelt the ore an manufacture or sell ironware on a large scale, and as the majority of ironsmiths only wor for wages, the mohatarfa tax on iron furnaces may be abolished altogether or a uniform rat of Rs. 2 for a furnace levied as in the Bangalore District.

4. Unofficial note No. 9, dated the 28th March 1910, from the State Geologist an Secretary to Government, Geological Department:—

"I believe the mohatarfa tax is essentially an industrial tax and I see no particular reaso why a small indigenous industry of this kind should be taxed as an industry. From revenue point of view the returns must be insignificant. Again there is no need to tax th iron ores. They are abundant and the total amount used will be trifling. Governmen might, I think, give the iron free for the sake of any industrial occupation which may resul rom their use.

The question of *charcoal* is on a different footing. In some places the fuel is abundan and comparatively valueless and might be used for *bona-fide* smelting without detriment t the forests or to other consumers. In such cases the seigniorage might be reduced to, say 8 annas per cart-load to registered owners of furnaces for *bona-fide* smelting works.

Where fuel is scarce the seigniorage should be increased up to the ordinary amoun levied from other users of the fuel. In such cases, it would not be fair to make the fuel mor difficult to get or more expensive for the other users for the sake of bolstering up a smal unhealthy iron trade.

The Forest Department should be able to lay down suitable rates for various localities in accordance with these principles.

Some such arrangement might be adopted provisionally for five years and Deputy Commissioners asked to report the number of furnaces in use, the amount of iron produced and the amount of charcoal consumed annually.

It should be understood that these concessions confer no lien on either the iron ores or charcoal which must remain at the absolute disposal of Government, should it be found desirable to utilize them otherwise or grant any concession in respect of them.

I recommend, therefore, the abolition of the mohatarfa tax and the levy of a graded seigniorage on the charcoal used on as liberal a basis as Government can afford without prejudice to other consumers for a period of five years."

5. The summary of discussion on the same subject in the Representative Assembly meeting of 1909.

No. R. 8090-99—L. R. 265-08-5, DATED BANGALORE, 2ND JUNE 1910.

ORDER THEREON.—Under the existing Orders (No. 1644—R. 546, dated the 22nd August 1899, and No. 8395-404—R. 2960, dated the 17th April 1901) an iron smelter has to pay to Government a mohatarfa tax varying from Rs. 21 to 30 per annum for each furnace in the different districts, but he is allowed to take charcoal free from the District Forests for smelting purposes. The rate of Rs. 12 referred to in the representation from the Mysore District, where, however, no iron furnaces existed previous to 1901, is the rate prevailing in the districts of Shimoga, Kadur and Chitaldrug.

2. In view of the repeated representations in the matter and the present backward condition of the industry in the State, Government consider that some

Land Revenue, dated 2nd June 1910.

relief to the iron smelters is called for, and accept the recommendation of the Revenue Commissioner and the State Geologist. They are accordingly pleased to direct that the mohatarfa tax on iron smelters be abolished with effect from the 1st July 1910 and that a fee be levied for charcoal removed for smelting purposes. The latter will be regulated according to the exigencies of the Forest Department as suggested by the State Geologist and will be settled by the Conservator in consultation with the Deputy Commissioner of the district, and duly notified, a copy of the notification being sent up to Government in due course.

3. The above arrangement will be tried tentatively for a period of five years, and an annual report will be submitted by Deputy Commissioners as to the number of furnaces in use in each district, the quantity of iron produced, the quantity of charcoal consumed and the amount of fee realized on this account annually.

Government Order Camp No. 20—30, dated the 30th May 1909, passing orders regarding the remissions and suspensions of land revenue for the year Kilaka (1908-09).

READ—

Letter No. 11482, dated the 17th May 1910, from the Revenue Commissioner in Mysore, submitting for the orders of Government, with his opinion, copy of letter No. 748, dated the 2nd May 1910, from the Officiating Deputy Commissioner, Tumkur District, soliciting instructions on the following points connected with the grant of concessions on Bagayet lands for the year 1908-09:—

(1) Whether any distinction should be made between Khushki and Tari Bagayet for the purposes of para 6 of Government Proceedings Camp No. 20—30, dated the 30th May 1909.

(2) Whether irrigated ragi crop that failed in a garden land should not be regarded as a wet crop for purposes of remission.

(3) Whether, if a dry crop has been raised in a Bagayet land, half the Bagayet assessment plus the average dry rate may be recovered.

No. R. 8245-6—AGRI. 82-09-5, DATED BANGALORE, 9TH JUNE 1910.

ORDER THEREON.—Para 6 of the Order of 30th May 1909, does not make a distinction between Tari Bagayet and Khushki Bagayet, because the Akarband makes no such distinction. According to this para 6 the criterion is whether the Bagayet land (*i.e.*, land classed as Bagayet in the Akarband) is usually cultivated with wet crops. And the term "wet crops" is applicable to paddy and sugar-cane, not to irrigated ragi or other dry crop which may get an occasional watering from whatever source. As the remissions and suspensions of revenue are mere matters of grace, it does not seem necessary to make fine distinctions.

2. As regards Bagayet lands on which dry crops were raised, the concession proposed, namely, to recover half the Bagayet assessment plus the average dry rate, may be allowed in the case of Bagayet lands usually cultivated with wet crops, but on which only dry crops were raised during the year in question. In other cases, *i.e.*, in cases of Bagayet lands usually cultivated with dry crops, no concession would be admissible.

Government Order No. Fl. 1318—G. F. 104-05-12, dated 7th August 1906, prescribing rules in regard to the grant of *lavajama* and daily allowances to officers in service invited to attend the Birthday and Dasara celebrations.

No. C. 61—G. F. 104-05, DATED CAMP MYSORE, 8TH JUNE 1910.

ORDER THEREON.—The Government are pleased to issue the following instructions regarding the question of the grant of *lavajama* or daily allowances to officers in the service proceeding to Mysore in connection with the ensuing Wedding and Birthday festivities:—

(i) Officers in service who proceed to Mysore in response to invitations issued from the Palace will receive *lavajama* from the Palace, for the period of ten days from the 16th to the 25th June 1910 and will receive no daily allowances under the Mysore Service Regulations for this period. If their stay at Mysore extends beyond such period and has been made under proper authority, daily allowance at the ordinary rates will be permitted for such additional period.

(ii) Officers who proceed to Mysore, not solely in response to the invitation but are required, under proper authority, to be on official duty at Mysore both before and after the said period, will be permitted to draw halting allowances for the whole period of their halt in Mysore irrespective of any *lavajama* which they may receive from the Palace. The travelling allowance bills of such officers will contain a special certificate by the countersigning officers to the effect that the conditions of this para are satisfied.

2. This will not affect the case of lent officers or European officers, which will be dealt with under para 2 of the Order read above.

CAMP NO. J. 106-117—PRIS. 73-09-2, DATED CAMP MYSORE, 12TH JUNE 1910.

ORDER.—His Highness the Maharaja has been pleased to direct, as an act of clemency and grace, and as one of the measures for celebrating the auspicious occasion of the marriage of His Highness SRI KANTIRAVA NARASIMHARAJA WADIYAR BAHADUR, Yuvaraja of Mysore, on the 17th June 1910, that the following prisoners confined in the prisons of the State and referred to in paras 2 and 3 below be released on that date.

2. *Short-term prisoners.*—All persons under sentence of one month's imprisonment or less on the 17th June 1910 shall be released on that date. This release will be granted only to well-conducted convicts, and under no circumstances to those who have been more than twice convicted or to those who have been committed to Jail in default of furnishing security for keeping the peace, or to those whose premature release is deemed to be unsafe in public interests. A consolidated list of such prisoners released in all the lock-ups in each district and in the Jails at Bangalore and Mysore should be submitted for the information of Government as early after the 17th June as may be practicable.

3. *Other prisoners.*—In addition to the above, five per cent of all prisoners under confinement shall be released on the said date according to the following lists :—

From the Bangalore Central Jail	.... The prisoners named in the list A.
From the Mysore Jail	.... The prisoners named in the list B.

4. His Highness the Maharaja is further pleased to direct that remissions of sentences be granted on the same date to the following prisoners to the extent noted against the name of each :—

In the Bangalore Central Jail	.... The prisoners named in the list C.
In the Mysore Jail	.... The prisoners named in the list D.

5. In every case of release or remission, the circumstances in which the measures of clemency and grace have been ordered are to be fully explained to every individual concerned, in order that all of them may join in the general rejoicings on the occasion of the celebration ; and those that are released will be exhorted to lead lives of peace and order in the future.

6. The releases and remissions will be announced and given effect to in Bangalore and Mysore by the Superintendents of the Jails and in other places by the senior Magisterial officer present or in the absence of a Magisterial officer by the officer in charge of the lock-up.

5. *A. Public works.*—A sum of Rs. 70,800 was sanctioned for expenditure on works to be executed by the Public Works Department during the year 1909-10. The Chief Engineer's proposal now received is for an equal sum being provided for expenditure during 1910-11. The provision, which is slightly in excess of the sum of Rs. 70,000 fixed as the annual allotment for expenditure by the Public Works Department, is passed.

6. *B. Contributions to works.*—The grant fixed for works to be executed by the Revenue Department is Rs. 12,000 per year. As a special case, sums of Rs. 24,631 and Rs. 18,770 were sanctioned for expenditure during the years 1908-09 and 1909-10 respectively. The statements now submitted by the Presidents of the several District Boards provide for an aggregate expenditure of Rs. 37,530 from the Local Funds General during the year 1910-11. As grants from the Local Funds General for purposes which come clearly within the province of the District and Municipal Funds are, generally speaking, objectionable, the grant for the current year will be fixed at Rs. 14,650 for all the districts as noted below :—

	Rs.
Bangalore	1,500
Kolar	2,000
Tumkur	2,000
Mysore	1,500
Hassan	1,650
Shimoga	2,000
Kadur	2,000
Chitaldrug	2,000
Total ...	14,650

The Presidents are again requested to see that their proposals for expenditure from the Local Funds General on works to be executed by the Revenue Department do not in future exceed Rs. 12,000 per annum, the grant fixed in the Government Order No. 7383-97—L. B. 269-07-4, dated 28th January 1908, *i.e.*, Rs. 1,500 for each district.

7. *Bangalore District.*—As a sum of Rs. 1,500, being the probable contribution from the Local Funds General, has been taken into account on the credit side of the Bangalore District Fund budget for 1910-11 and as the works now proposed to be executed have not been included in the list submitted with the District Fund budget, a sum of Rs. 1,500 out of the sanctioned provision in that budget should be set apart for expenditure on works detailed in the list now received, the balance only of the District Fund provision being utilised for expenditure on such of the works referred to in the list appended to the District Fund budget as are important and urgent. The President is also requested to consider whether the construction of a box drain at Bidadi, estimated to cost Rs. 1,407, may not have preference over the works referred to in the list now submitted.

Kolar District.—The President proposes that a grant of Rs. 5,000 may be made from the Local Funds General to meet the cost of incomplete well works and of well-boring operations carried on in the district. A sum of Rs. 1,000 has been provided in the District Fund budget on account of well-boring operations in the district and another sum of Rs. 1,000 will be provided in the present budget under "C. Civil charges" as recommended by the Revenue Commissioner for demonstrating the use of well-boring instruments. The grant for 1910-11 from the Local Funds General will be limited to Rs. 2,000. The President should utilise the provision after obtaining the approval of Government on a separate reference submitting a list of works proposed to be undertaken out of the grant.

Tumkur District.—A grant of Rs. 2,000 is allowed for this district and the President is requested to submit a list of works as in the case of the Kolar District.

Mysore District.—A grant of Rs. 2,800 is asked for by the District Board, but the President is of opinion that the work of dismantling the fort walls of the Basral

village may lie over for execution as a distress work. A sum of Rs. 1,500 is sanctioned for this district to be utilised on repairing the Chamsagara tank, which is the source of water-supply to the people of the Chamrajnagar Municipality.

Hassan District.—The provision asked for, *viz.*, Rs. 1,650, is only slightly in excess of the average of Rs. 1,500 for the district and is allowed.

Shimoga District.—The President asks for a grant of Rs. 11,480 for the following works:—

	Rs.
(1) Constructing a musafirkhana at Mandagadde	2,980
(2) Completing well works	2,500
(3) Opening Shikarpur-Masur road	3,000
(4) Opening Channagiri-Ajjampur road	3,000

The road works should be undertaken when the District Board can provide funds for them and the grant of Rs. 2,000 in the current year's Local Funds General budget has been ordered to be appropriated for meeting the cost of the well works referred to. The sum of Rs. 2,000 now allowed as a grant should be utilised towards the cost of constructing the musafirkhana at Mandagadde, for which an estimate amounting to Rs. 2,425 was lately sanctioned by Government, and the President should arrange to meet the balance of Rs. 425 required for the completion of the work from the District Funds.

Kadur District.—As out of the above grant of Rs. 2,000 a sum of Rs. 1,500 has already been taken into account on the credit side of the District Fund budget for 1910-11, an equal sum out of the sanctioned provision in that budget under "B. Public Works: I. Original" should be set apart for expenditure on the above work, the balance only of the District Fund provision being utilised for expenditure on such of the works included in the list appended to the District Fund budget as are important and urgent.

A sum of Rs. 2,000 is allowed for expenditure on such of the works included in the list as are urgent and important.

Chitaldrug.—The President asks for a grant of Rs. 6,000, but a sum of Rs. 2,000 only can be allowed for this district. The President will report for what purposes this amount will be utilised.

7. *C. Civil charges.—Industrial schools.*—A sum of Rs. 85,161 is sanctioned for expenditure in the Industrial School budget for 1910-11 and will be provided under this head.

8. *Indigenous Hospital.*—The provision made for the Indigenous Hospital, amounting to Rs. 3,360, including the increase to the salary of the hakim recently sanctioned, is approved.

Though it has been repeatedly pointed out to the President that in the Local Funds General budget provision is made only for the cost of the Indigenous Hospital at Mysore, the President includes in his statement of expenditure from the Local Funds General the provision required for the Local Fund dispensaries at Erangere, etc., for which due provision is made in the District Fund budget of the Mysore District and which need not be included in this statement. The President's attention is again invited to the error.

9. *Dasara Show.*—As a sum of Rs. 11,720 is provided for expenditure in the Exhibition budget, a moiety thereof, *viz.*, Rs. 5,860, will be provided under this head.

10. *Pasteur Institute, Coonoor.*—The usual provision of Rs. 500 will be entered under this head to meet the annual contribution payable during 1910-11, for the institution, for which a sum of Rs. 500 per annum for five years commencing from 1907-08 was promised.

11. *Purchase of seed-grains, etc.*—In addition to the usual provisions for the purchase of seed grains, etc., the Revenue Commissioner recommends that a sum of Rs. 1,000 may be provided to meet the charges of demonstrating the use of well-boring instruments. The recommendation is approved.

12. *Veterinary dispensaries.*—The increase of Rs. 672 over the provision sanctioned in the budget for 1909-10 is stated to be on account of the opening of two dispensaries sanctioned in 1909 and is retained.

13. The budget estimates as thus revised are sanctioned as in the accompanying statement, of which an abstract is given below:—

Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Local Boards), dated 29th June 1910.

READ—

Para 2 of Government Order No. 3068-76—L. F. 320-96, dated the 19th February 1904, directing that the grants occasionally made from the Local Funds General for incomplete and special works to be carried out by the Revenue Department, should be treated as contribution to District Funds.

2. Para 2 of Government Order No. 7383-97--L. B. 269-07-4, dated the 28th January 1908, defining the nature of the works for which grants-in-aid from Local Funds General may be allotted and the limit to which the grants may extend.

3. Comptroller's note No. 95, dated the 22nd November 1909, stating that the sum of Rs. 1,750 provided in the Local Funds General budget for 1908-09 under B. Contribution to works (well works) in the Kadur District was not credited to District Funds, as the order of 1904 read above is not applicable to a case of this kind, and that the general principle in such cases is to make adjustments to the extent that works are carried out and not to treat the amount merely provided in the Local Funds General budget as an absolute grant-in-aid irrespective of the execution of works at the expense of the District Funds in the first instance.

4. The same officer's note No. 109, dated the 9th February 1910, suggesting that the ordinary grants to the District and Municipal Funds from the Local Funds General for small works may be treated as absolute grants, but that in the case of comparatively larger works the balance of the grant not fully utilized should be recredited to Local Funds General.

No. 11027-37—L. B. 364-09-1, DATED BANGALORE, 29TH JUNE 1910.

ORDER THEREON.—If the contribution made from the Local Funds General to the District and Municipal Boards is a general grant-in aid, though fixed with reference to the estimated expenditure on particular works, the transaction is closed by crediting the amount to the Board concerned and it is unnecessary to watch whether the actual expenditure on the particular works is more or less than the contribution given or to make an adjustment in respect of any excess, or dificiency.

2. If the contributions are for particular works, they should be credited to the Boards concerned at the beginning of the year or when they are sanctioned; and on the submission of completion certificates after the closing of the works, the saving effected in the case of each work should be ascertained and such saving if it exceeds Rs. 100 should be recredited to Local Funds General.

3. In the case of works for which a grant is made from Provincial Funds or Local Funds General, a report of completion of work should be submitted to Government.

CIRCULAR.

With reference to the instructions conveyed in this Office Circular No. G. 2942-9—G. M. 121-07-19, dated 8th November 1907, regarding the statements of newspapers published in the State, it is requested that the following reports and returns may be furnished to this office in supersession of those which are now being sent :—

(1) Quarterly returns in the form appended to this Circular, of all newspapers published in the several districts, so as to reach this office not later than the 5th of the month following the quarter to which they relate.

(2) Special reports in similar form (omitting column 7) whenever a new newspaper of political importance is started and special intimation of the discontinuance of such a newspaper or of any material change in its editorship, proprietorship, place of printing or publication or tone.

(3) A brief annual report on the character, tone and influence of each paper to accompany the quarterly return sent to this office for the last quarter of the year. This annual report will be furnished both by the District Magistrates and the Inspector-General of Police on or about the 5th January every year.

The Superintendent of the Government Press is requested to have a sufficient number of copies of the form printed and kept in stock for supply to District Magistrates on requisition.

Proceedings of the Government of His Highness the Maharaja of Mysore, General (Miscellaneous), dated 14th June 1910.

No. G. 6759-70—G. M. 303-09-1, DATED BANGALORE, 14TH JUNE 1910.

ORDER.—A number of the head-quarter offices in Bangalore are now located in rented buildings which, having been originally designed as dwelling houses, are quite unsuited for use as offices for the transaction of public business. The inconvenience of this is so great that the construction of suitable buildings for these offices cannot any longer be postponed. Besides, the saving that would be effected on account of rent now paid for those offices will, it may be expected, go far towards giving a satisfactory return on the capital cost of the buildings to be constructed.

2. It seems desirable that some of the new buildings should be erected in the Mysore City. Some of the head-quarter offices, as for instance, those noted in the margin, may, with great benefit to the public generally and to the Mysore City in particular, be shifted to the Capital. The Chief Engineer is therefore requested to prepare plans and estimates for the above offices in consultation with the Heads of the Departments concerned and submit them early for the sanction of Government. An equally important preliminary step to take at an early date will be to prepare site plans for sites for these buildings in Mysore City. This may be set about in consultation with the Mysore Improvement Trust Board and the Municipal Council.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ:—

1. Government Proceedings (Public Works) No. 108-26—1241-59 dated the 9th February 1910 sanctioning, as a temporary measure, the formation of a Special Channels Conservancy Division.

2. The following note dated the 5th May 1910 by the Chief Engineer and Secretary to Government, Public Works Department:—

"Subject:—Survey estimate for the Cauvery Reservoir project.

In para 7 of my note of the 27th January last, submitting proposals for the formation of a temporary Channels Conservancy Division (since sanctioned in Government Proceedings No. 108-26—1241-59 dated 9th February 1910), I represented to Government that we could not, without risks, go on with the temporary arrangements for maintaining the hot weather supply to the Cauvery Power Scheme from year to year for very long, that it was necessary to construct a storage reservoir in the valley to impound at least 6,000 units and that, if possible, the opportunity should be taken to construct a large storage reservoir to ensure an adequate fair weather supply both for power generation and irrigation in the valley. I also proposed to employ the staff of the temporary Channels Division on the investigations of these large questions as far as possible.

2. The question of storage reservoirs in the Cauvery river valley has been under consideration and discussion since the completion of the first installation of the Power Scheme in 1902.

The river supply is found short in the hot weather months almost every year. The additional supply then needed is provided partly by stinting the supply to the irrigation channels and partly by storing water above the anicuts by temporarily raising their crests.

3. From a perusal of the files in this office, it is seen that only two reservoirs have been sanctioned as protective works in the valley, one across the Lokapavani at Vedasandra, which provides for a storage of 1,104 units and is estimated to cost Rs. 2,32,614; the other across the Vadli stream in the Lakshmanthirtha valley with a storage of 1,020 units and estimated to cost Rs. 1,33,000. Both are intended for irrigation.

Preliminary investigations were made for storage reservoirs across the Nugu and the Suvarnavati to impound 5,000 and 8,000 units respectively but the projects seem to have been abandoned for want of suitable foundations for masonry dams. No investigations have been attempted on the Yagachi, the Kabani and the Hemavati.

4. Government are aware of the details of the investigations recently carried out by the late Captain Dawes for a large reservoir across the Cauvery. The cost of a reservoir and electric power works at a new station on the Shimsha as estimated by Captain Dawes amounted to 167 lakhs.

Work done during these preliminary investigations included the following:—

(1) Detailed surveys for the dam, with the necessary contours to determine the water spread and capacity of the reservoir;

(2) Running of trial lines for irrigation channels on both banks, the channel on the right bank starting 35 feet above the river bed at the proposed site of dam and the one on the left taking off at 61 feet above the bed;

(3) Surveys for a duct to carry the water to a forebay above the proposed Shimsha power station.

Work done under (1) will be useful if, on examination of all available sites on the river, that originally selected turns out to be the most suitable. As the rock levels along the line proposed for the dam are already ascertained by trial pits and trenches, the detailed designs for a dam at this site will not take much time to complete.

Work done under (2) that is, the levels collected will be useful as a general guide but unless it is found expedient to adopt the same starting levels for the new channels, the results cannot be availed of in the new scheme.

Work done under (3) which included the design for an armoured-concrete pipe is not likely to be useful.

5. It is proposed to settle the question of the reservoir site first and then to proceed with the design for the dam and subsidiary works.

The alignment of the channels will be settled next and arrangements for an agricultural map of the tract commanded will be set on foot. Detailed surveys and preparation of regular estimates for these channels will be taken in hand only after the construction of the reservoir is sanctioned.

6. When the preliminary investigations were in full swing during 1906-07 the following establishment was employed on the works:—

Two Executive Engineers.
One Sub-Assistant Engineer.
Ten Surveyors.
Two Draftsmen.
Two Clerks.
One Calculator.

The average monthly expenditure was Rs. 1,845. The work lasted from July 1906 to July 1908. I submit herewith an estimate of establishment now required.

The cost of establishment will be Rs. 3,175 per month or Rs. 19,050 for six months. Adding Rs. 5,950 for travelling allowances and contingencies, the total establishment charges will be Rs. 25,000.

A sum of Rs. 10,000 is provided for survey charges, *i.e.*, levelling, taking trial pits, examination of foundations for the dam, canals, etc.

7. Sanction is therefore required to an expenditure of Rs. 35,000 on these surveys. Members of the permanent staff will be employed as far as possible.

The expenditure on Captain Dawes' rough project amounted to Rs. 46,000.

For comparison it may be stated that the Bhadra project in the Shimoga District with one anicut and 77 miles of channel has cost nearly Rs. 20,000 for a complete and well considered investigation. The more thorough the preliminary investigations, the safer will be the estimates.

* * * * * * *

9. It is proposed to push on with the surveys during the monsoon.

The river supply and conditions are magnificent. The questions as to how much storage could be profitably utilized for irrigation and power generation respectively have to be discussed and settled.

As soon as the preliminary investigations are completed, recommendations on these points will be submitted to Government.

* * * * * * *

11. I request sanction to the accompanying estimate. The amount necessary for expenditure in the current year will be small and will be met by reappropriations."
